<td>It is unlawful to routinely waive/fail to collect or discount co-payments, deductibles, coinsurance or other patient responsibility payments per federal false claims act, federal anti-kickback statute, state and federal insurance fraud laws. It is also in violation of our managed care contracts. This includes services deemed as “professional courtesy” and “TWIPS-Take what insurance pays”. Therefore, Esse Health physicians and staff are not to waive or apply a discount to fees deemed to be the patient’s responsibility except as outlined under “Exceptions” of this policy. Anyone found to be in violation of this policy will be subject to corrective action as outlined in the Corrective Action policy.</td>
<td>The Exceptions to the General Policy are as follows: 1) The entire fee is waived and no insurance carrier is billed any amount for the services rendered. 2) The patient is a self-pay with no health insurance benefits. You may discount care but a consistent office policy will need to be developed. 3) The patient qualifies for a financial hardship waiver or discount. Documentation of financial hardship must be included in the patient’s medical record and a supporting note in the patient’s financial account in PEARL. Please reference “Documentation needed to show financial hardship” section on acceptable documentation. 4) Reasonable efforts have been made to collect on the account. Once patient has gone through the collection phase as set up by Patient Accounts and the amounts are deemed “uncollectable” the amounts can be written off. 5) The amount of patient responsibility is under $5 after 120 days of no activity (no new charges/credits) on the account. The Patient Accounts Department and the physician office will determine if the patients will be sent statements during this 120-day cycle.</td>
<td>The patient will need to complete a financial disclosure form (see attachment B) and provide documentation of proof of income. Appropriate documentation of financial hardship would be one or more of the following: 1) Documented proof that patient is at or below 200% of the current federal poverty guidelines (see attachment A for 2000 guidelines) This can include documents such as W-2 withholding statements, pay check stubs, income tax return, forms from Medicaid or other State-funded medical assistance, forms from employers or welfare agencies. 2) Patient has other circumstances that indicate financial hardship. These can be situations such as proof of bankruptcy settlement, catastrophic situations (death or disability in family, divorce) or other documentation that shows that patient would be unable to pay medical bill and still be able to pay for other basic necessary expenses. Income shall be annualized from the date of request based on documentation provided and upon verbal information provided by the patient. The annualization process will also take into consideration seasonal employment and temporary increases and/or decreases to income. Any denial of “financial hardship” discount request will be written and will include instructions for reconsideration. If additional documentation of financial need is received to support charity care, the request will be reviewed and considered per the above guidelines. All information relating to financial hardship requests will be kept confidential.</td>
